A sneak peak for MODPROD into:

Aero EDIH

a European Digital Innovation Hub

Funded by
the European Union

The European Digital programme 2021 - 2027

5 key areas to accelerate the recovery of European economy and boost the digital transition of Europe

Ensuring a wide use of digital technologies 1.1 B€

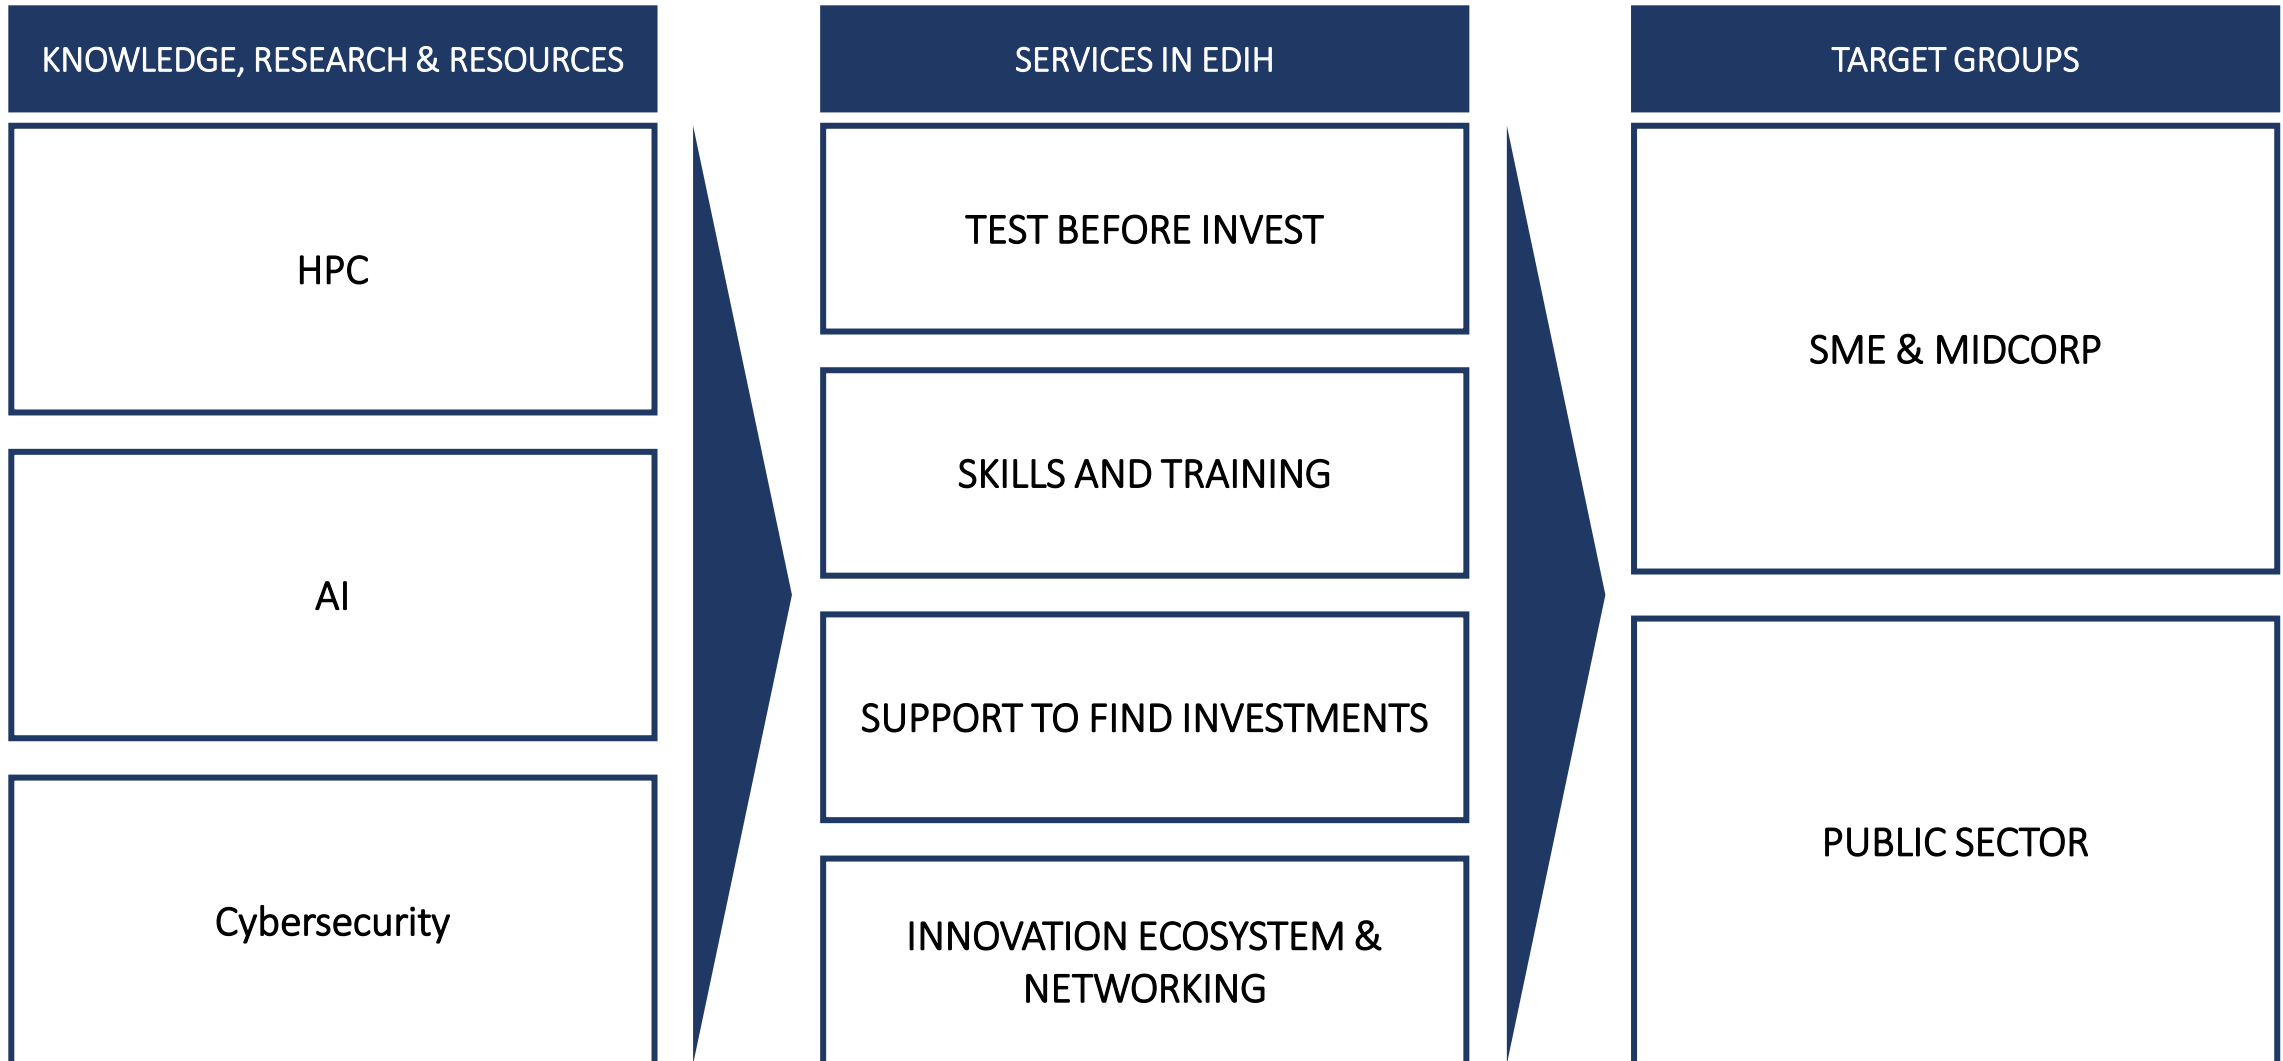

Advanced digital skills 580 M€

HPC
2.2 B€

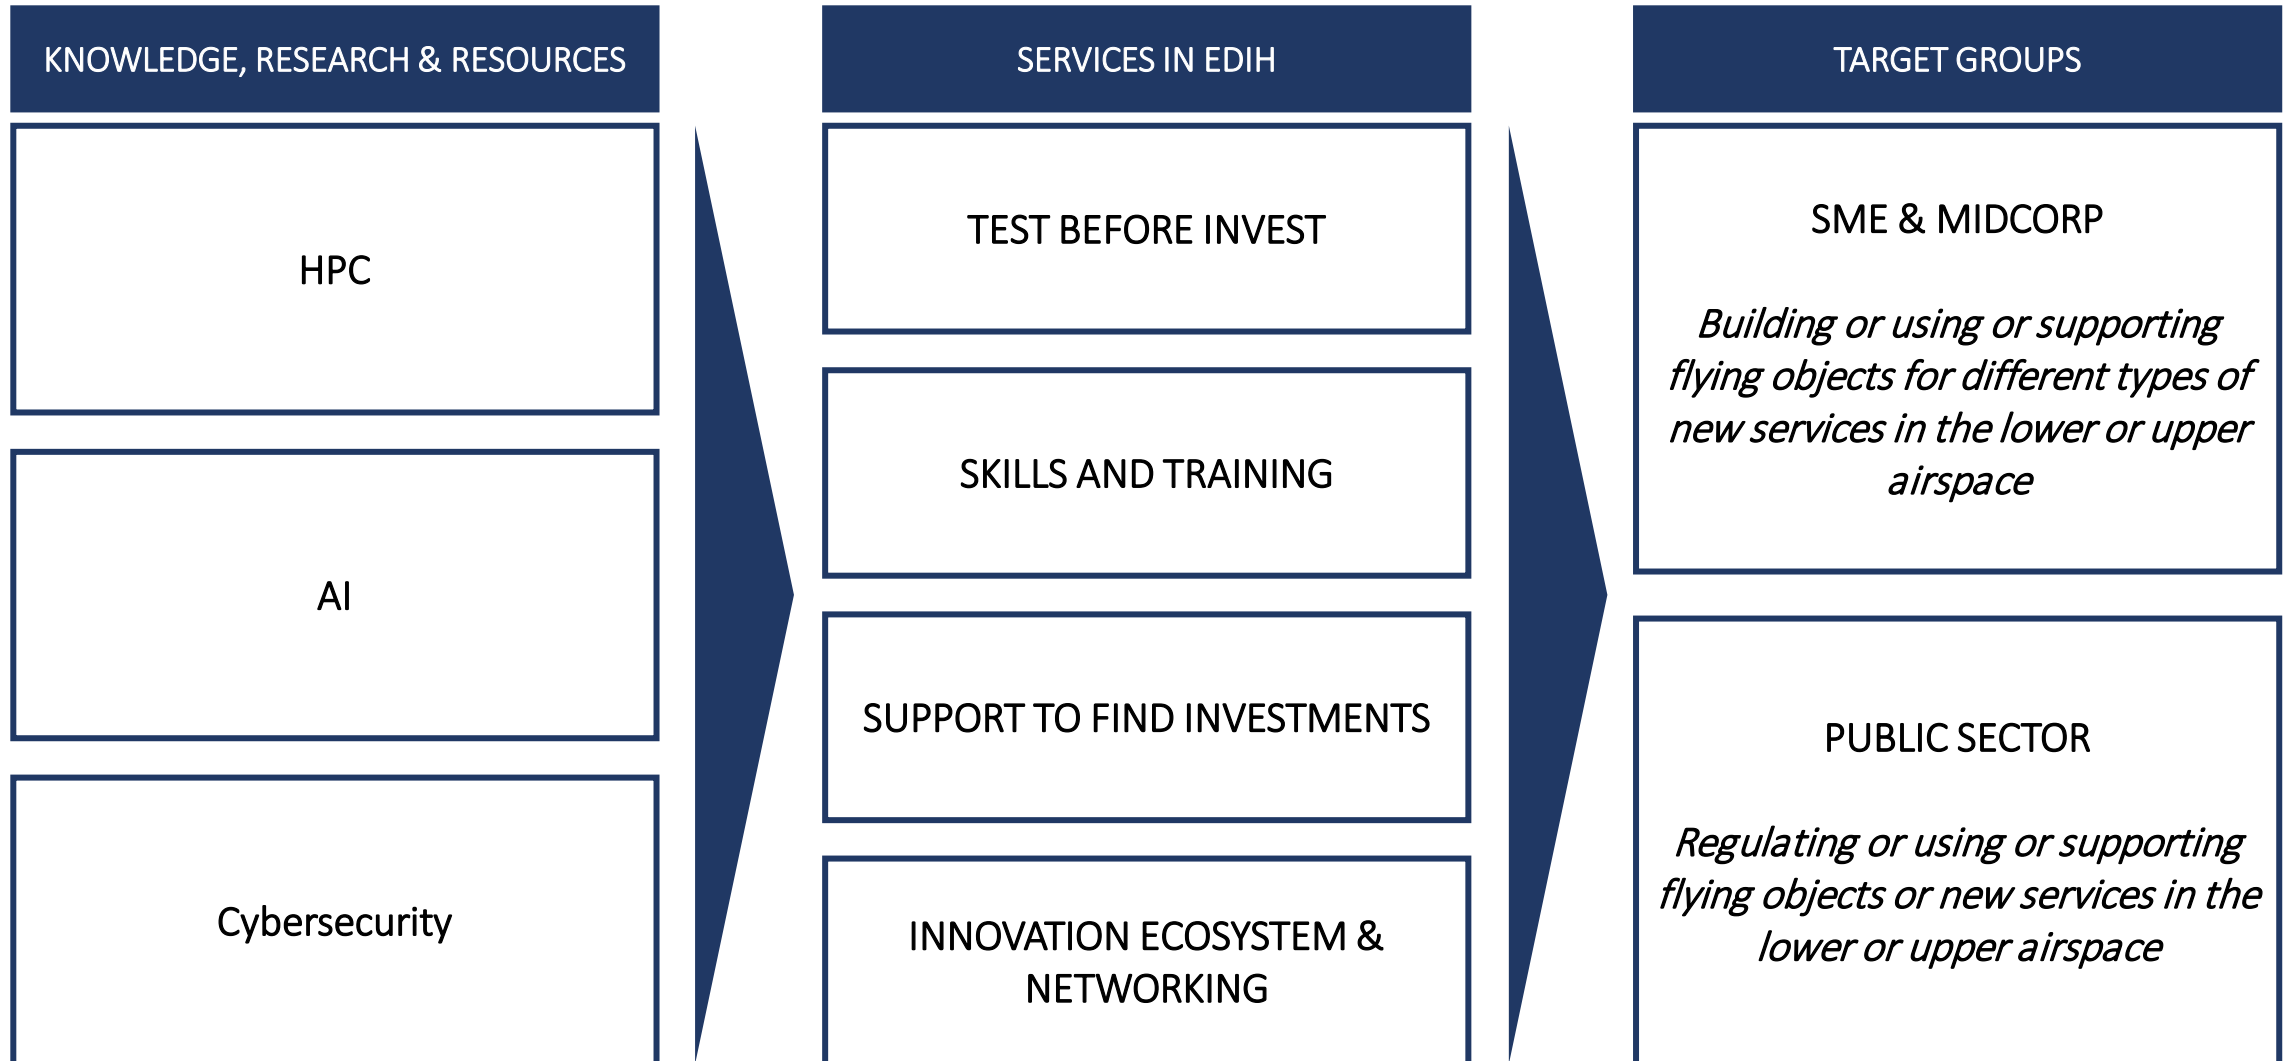

AI
2.1 B€

Cyber
1.6 B€

European Digital Innovation Hub

European Digital Innovation Hub

EDIH LOCATIONS

137 EDIHs ACROSS EUROPE FUNDED IN THE FIRST WAVE

Funded by
the European Union

Funding:

Roughly 1 M€/year/hub
during 3 (+4) years

Digital Europe 50%

Regional EU funds 40%

Region Östergötland 10%

TECHNOLOGY FOCUS OF AERO EDIH

Visualization Simulation Prediction Optimization Image analysis Automation

**Artificial
Intelligence**

**High
Performance
Computing**

**Cyber
Security**

**5G/6G
Connectivity**

**Internet of
Everything**

TYPICAL EDIH CUSTOMER CASES

AI

Route optimization for drone swarm delivery

Image analysis for autonomous data collection

Cyber Security

PoC and field test to stress test a drone system for vulnerabilities and lack of resilience

VISUALIZATION & HPC

CGI/VR-simulation of an upcoming product to convince stakeholders to invest

AERO EDIH SERVICE PROVISION

**Testing before
investing (PoC)**

**Training & Skills
Development**

**Networking & Access to
innovation ecosystems**

**Support to find
Investments**

Aims to raise digital maturity and investment readiness

STEP-BY-STEP RAISING THE DIGITAL AWARENESS

Awareness seminars

Explain the opportunities of digitalization (Cybersecurity, AI, HPC)

Technical seminars

Dive into the different technical areas

Workshops

Hands on workshops in subareas or problem oriented

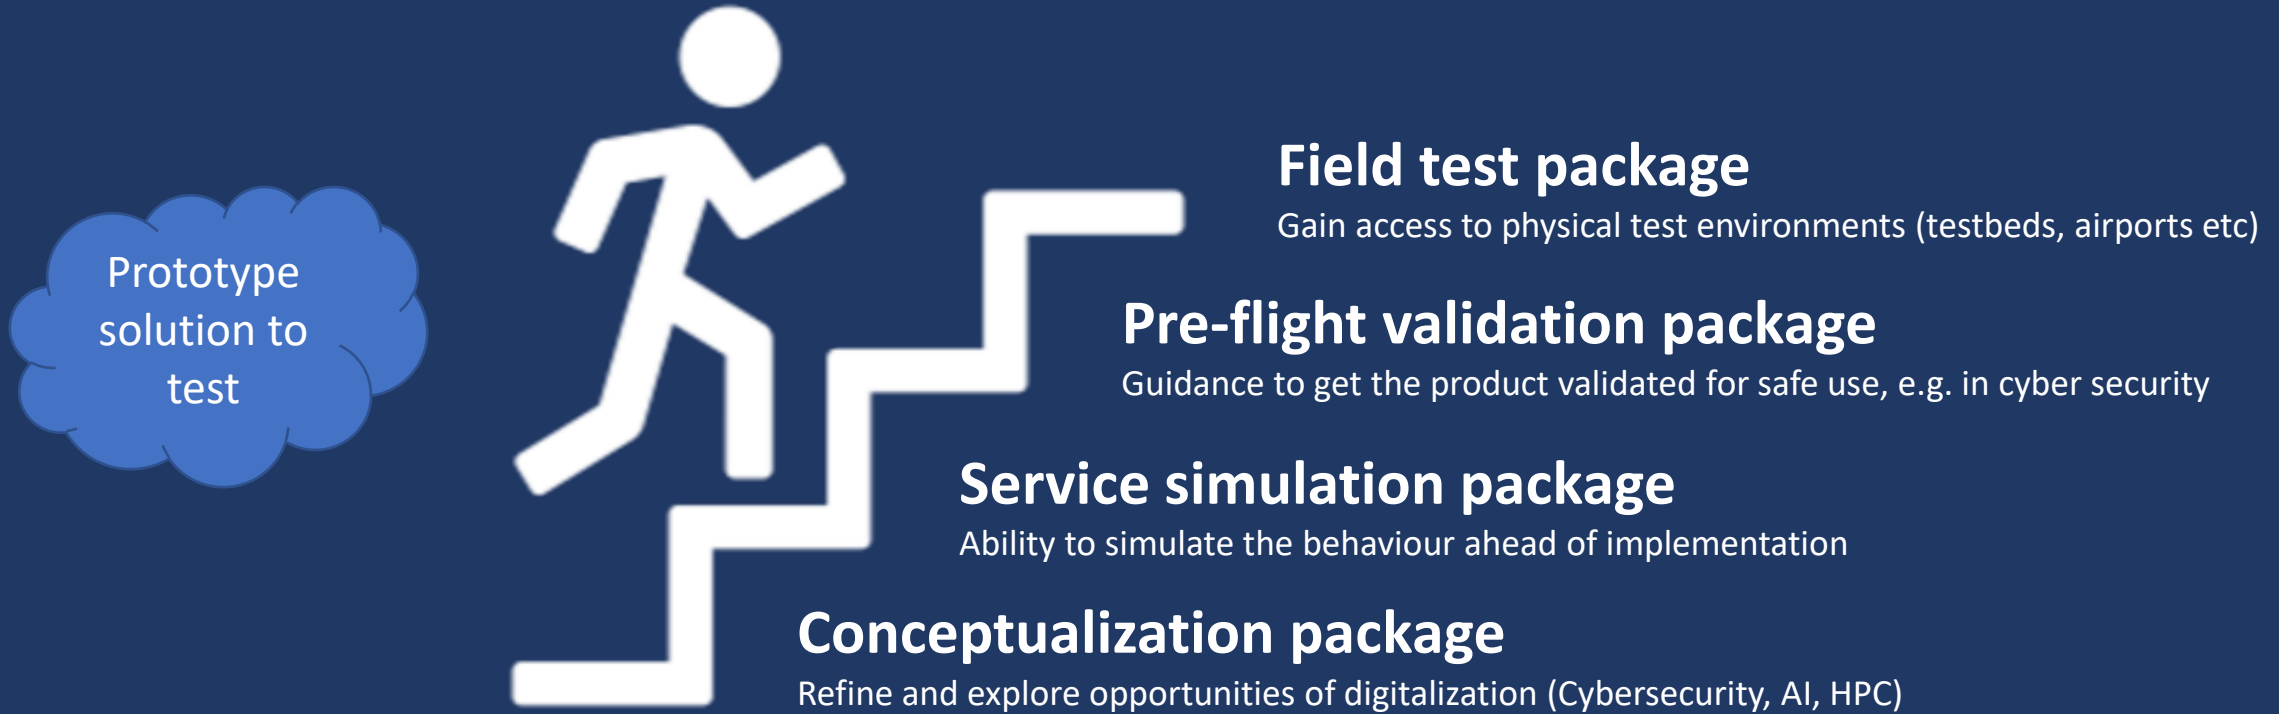

Training

Different available training programs for personnel

Knowledge problem + Idea or opportunity to solve

STEP-BY-STEP RAISING THE DIGITAL MATURITY LEVEL

QUESTIONS BEFORE A SHORT DISCUSSION ON POSSIBILITIES?

TOPICS FOR DISCUSSION ON POSSIBILITIES ON CONNECTING RESEARCH TO COMPANIES

A) Where do you think research can contribute and collaborate?

- **Field test package**
 - **Pre-flight validation package**
 - **Service simulation package**
 - **Conceptualization package**
 - **Training**
 - **Workshops**
 - **Technical seminars**
 - **Awareness seminars**
- ✓ **Visualization**
 - ✓ **Simulation**
 - ✓ **Prediction**
 - ✓ **Optimization**
 - ✓ **Image analysis**
 - ✓ **Automation**

B) Can your research be of interest for the target group?

C) Can the target group be of interest for your research?
